

Measure Impact

Inform is the analytical tool of the Mission Suite that empowers you to examine metrics from the perspective of participants or from the events hosted. This dynamic module will give you a full picture of the impact of the events you offer at your parish and what inspires participants to deepen their faith and evangelize others.

Find People

Use default or create new searches to identify people or groups of people at a specific point in their faith journey.

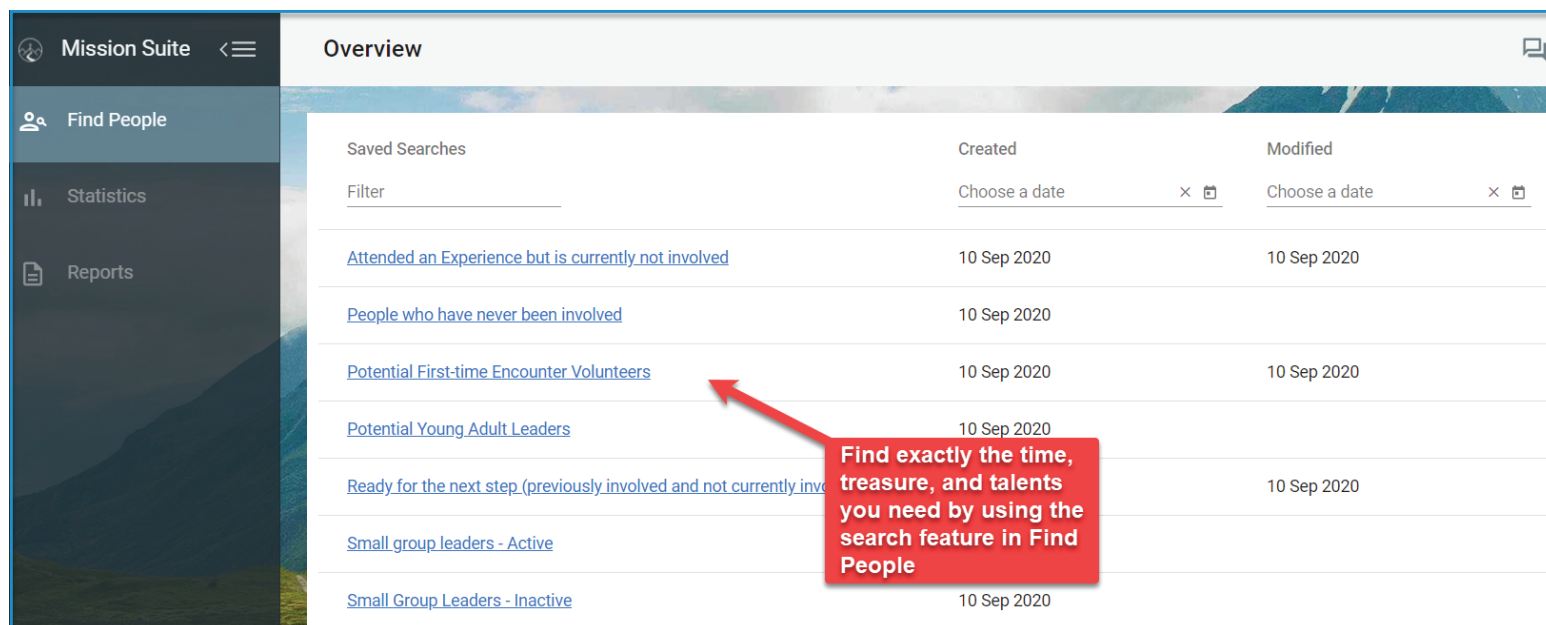

Statistics

Access session data to determine its effectiveness and discover trends in growth to volunteer and leader roles.

Reports

View participant details such as contact information, sessions attended, and percentage of participants to volunteers.

Our software provides measurement tools to determine the health of your parish and its parishioners as they move from maintenance to mission.

- Create searches to focus on important data points
- Identify people ready for the next step by viewing overall participant involvement
- Evaluate the effectiveness of current experiences
- Make informed decisions based on data results

Mission Suite

Our software design method is rare, yet simple. We consult end users at every point of the process. This collaborative approach results in high quality, intuitive applications. Below are the four modules that make up the Mission Suite.

ENCOUNTER

Provide a structure to accompany people as they understand and share the faith.

GROW

Facilitate small faith communities and form intentional disciples.

INFORM

Assess the impact of your evangelization and discipleship processes.
